Product Information:

The full bin is indicated via the display and the machine switches off automatically.

The paper feed with overload protection reduces paper jams and sustains the high throughput of paper.

The operation is very easy: the device starts automatically when fed with paper and automatically stops after shredding is complete.

The stand-by feature ensures a high degree of energy saving when the shredder is not in use.

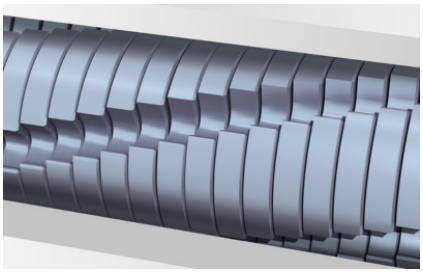

The waste container can be easily removed and emptied.

The quiet operating mode minimises noise development in the workplace which is an important consideration for your staff.

User safety is paramount. A slight pressure on the safety element immediately stops the paper feed and prevents unintentional entry into the machine.

The hardened steel cutting rollers with a lifetime warranty can easily cope with staples and paper clips and guarantee durability.
