

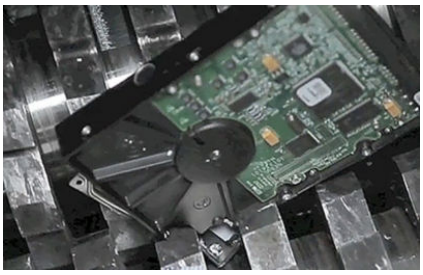
HSM StoreEx HDS 230 - 20 x 40-50 mm

Secure, data protection compliant and economical. This digital data media shredder shreds digital data carriers into little particles and makes data recreation virtually impossible.

Technical data

Order number:	1778124F	EAN:	4026631075862
Cutting type:	particle cut	Cutting size:	20 x 40-50 mm
Security level (DIN 66399 / ISO/IEC 21964):	E-2|H-4|O-1|T-2	Cutting capacity HDD up to 3,5" (items/h):	360
Cutting capacity HDD up to 2,5" (items/h):	1500	Cutting capacity CD/DVD (items/h):	7500
Cutting capacity magnetic tapes (items/h):	500	Loading aperture (LxWxH):	300 x 165 x 60 mm
Noise level (idle operation):	ca. 53 dB(A)	Voltage / Frequency:	400 V / 50 Hz
Loading aperture (WxH):	165 x 60 mm	Width x Depth x Height:	2879 x 905 x 1712 mm
Machine weight:	860 kg		

Product Information:

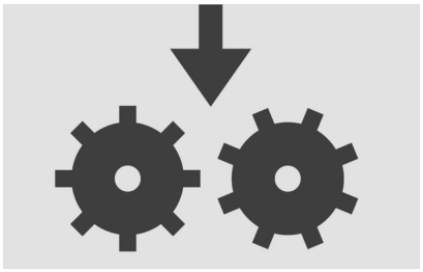


The automatic reverse function in the shredder eliminates material jams and ensures your shredding operations run smoothly.

The discharge conveyor belt makes the collection of the shredded material easy and convenient. Any standard container can be used to collect the material at the end of the conveyor belt.

Thin optical, magnetic and electronic data media can be shredded comfortably and quickly using the input slot.

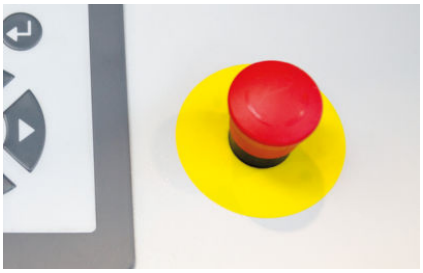
Data media can be shredded easily in decentralised locations with this machine.



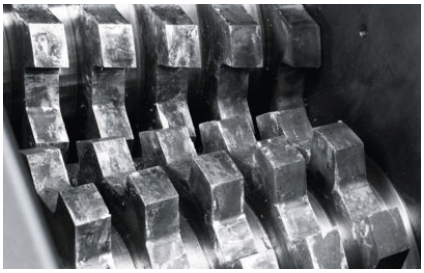
This powerful machine provides an excellent cutting performance combined with reliable continuous operation and a low noise level

The selection of the correct functional mode will always ensure the maximum throughput for the respective material type.

The large LED display enables the continuous input of media at a comfortable working height.



It may be necessary to stop the machine immediately so we have equipped the device with an emergency off switch which, when activated, will do just this.



The induction-hardened, solid steel cutting rollers are robust and ensure a high level of durability!
